👤 CAREER OBJECTIVE

Ambitious IT student with hands-on experience in Java, Python, HTML, CSS, and web development. Passionate about designing and developing scalable, efficient applications that solve real-world problems. Strongly committed to continuous learning, adapting to new technologies, and contributing effectively to innovative software development projects. Seeking internship opportunities to apply technical skills, enhance problem-solving abilities, and collaborate in a fast-paced development environment.

🎓 EDUCATION

Bachelor of Technology (Information Technology) V.S.B. Engineering College, Karur CGPA: 8.84	2023 – 2027
HSC Percentage: 85.3%	2022 – 2023

🧠 TECHNICAL SKILLS

Programming Languages Java, Python	Web Development(Frontend) HTML, CSS, React.js
Backend Development Flask	Database MongoDB, MySQL
Machine Learning Scikit-learn, Pandas, NumPy	Tools GitHub, VS Code, Jupyter Notebook

📁 PROJECTS

- Orion Care – Healthcare Web Application**
- Developed a responsive healthcare website with an intuitive UI to showcase medical services and improve user experience. Deployed the application using Render.
 - Tech Stack: React.js, JavaScript, HTML5, CSS3, Tailwind CSS, Render
- CityWeave AI – Hyperlocal Community Intelligence Platform**
- Built a full-stack platform with user authentication, community posts, comments, and real-time feeds. Implemented AI-powered semantic search using VectorDB for intelligent matching.
 - Tech Stack: Python, SentenceTransformers, HTML, CSS, JavaScript.
- AI-Powered Crop Yield Prediction and Optimization**
- Developed a machine learning model to predict crop yield using environmental, agricultural parameters. Performed data preprocessing, visualization, and model training using Pandas, NumPy, and Scikit-learn.
 - Tech Stack: Python, Scikit-learn, Pandas, NumPy, Matplotlib, Jupyter Notebook.

📁 INTERNSHIP

Infosys SpringBoard Artificial Intelligence and Machine Learning	12/2024 – 01/2025
- Developed a full-stack web application named CardioInsight using Next.js, TypeScript, Flask, and MongoDB for real-time cardiovascular risk prediction supporting downloadable PDF reports. - Implemented a Random Forest model (Scikit-learn) with feature engineering and probability calibration, achieving a 12% improvement in prediction accuracy enhanced efficiency by 30%.	

📄 CERTIFICATIONS

- | | | |
|--|--|---|
| • NPTEL Programming in Java (Elite + Silver - 78%) | • Java Certification - Infosys SpringBoard | • AWS Certified Cloud Practitioner |
| • Python Certification - Infosys SpringBoard | • Solved 300+ LeetCode problems in Java | • Presented a technical paper on Microbiome Optimization. |

🧩 SOFT SKILLS

- | | |
|-------------------|----------------------|
| • Problem Solving | • Team Collaboration |
| • Adaptability | • Rapid Learning |
